Hire a community,
not just a candidate

Combining software testing and recruitment into one consultancy service

As experts in all areas of software quality assurance, we have years of experience working onapplications with enterprise-level complexity. We understand project scopes are constantlychanging, and internal software development teams are under pressure to complete highvolumes of work to challenging deadlines.

To deliver outstanding software to your clients and achieve an unbeatable customer experience, you need testing to be done at the right stages in your software development lifecycle, driven by excellent quality assurance expertise.

Choose flexible candidates and scalable services

As domain experts in software testing, we have years of experience testing applications with enterprise-level complexity. We understand project scopes are constantly in flux, and internal software development teams are under pressure to complete high volumes of work to challenging deadlines.

To get the job done and provide a flawless customer experience, you need the right expertise to search for the most damaging bugs and defects that your developers don't have time to find.

spriteCloud Enterprise IT combines the best of software testing services and recruitment into one all-inclusive service, especially customised for enterprise clients. We are more than a recruitment agency. Using our extensive network of testing professionals and technical expertise, we will help you find the candidates that fit seamlessly into your internal teams, fully supported by our ability to perform QA services on demand.

Why spriteCloud Enterprise IT

Domain experts in software testing
Industry-certified testers, we keep up-to- date with industry developments and provide professional development opportunities for our candidates to learn the latest methodologies and tools.

Use our extensive network
We already have access to an extensive network of software testing specialists who are skilledin a wide range of industry specialisms. We know how to provide you with the right people, quickly and effectively.

Fully scalable
With our own available in-house staff and community of freelancers, we can fill positions across a range of skillsets on demand, resulting in flexible scalability to meet your challenging deadlines.

Transparency
We are in direct contact with the candidates, meaning you'll receive the best profiles that possess the right skills, experience and personality to match your vacancy. You'll never be recommended someone whom isn't right for you.

Cost-effective quality
As there is no middle man and we supply our own staff and carefully-vetted freelancers, we can provide a quality testing service for a cost-efficient price. There are no hidden costs buried in the paperwork, so you will never pay for a service you didn't request.

With us, you'll work with a testing community, not just a testing candidate.
